## CDI Today... and Tomorrow

In this session Antonio will introduce

### **Context & Dependency Injection,**

explain most of the concepts

(injection, producers, interceptors, decorators, events...)

but also show you why CDI has become

**the main specification of Java EE.**

As CDI 2.0 is in the starting block,

Antonio, who is part of the expert group,

will share with you the roadmap

that the 2.0 version has in mind."

Alors n'attendez pas, inscrivez vous vite !
